

## Patient Vaccination and Well Child Agreement

SCHEDULE OF VACCINATIONS AND WELL CHILD VISITS	
<p>At The Pediatric Place, we believe in the effectiveness of vaccines to prevent serious illness and to save lives. We also believe in the safety of our vaccines. Because of this, we believe that all children and young adults should receive all the recommended vaccines according to the schedule published by the Centers for Disease Control and the American Academy of Pediatrics.</p>	
<p>With that being said, we will only accept patients that follow the required vaccine schedule noted. Should you choose to follow an alternate schedule deviating from the schedule below, we will not be able to accept you as a patient and/or you will be discharged from the clinic.</p>	
Patient's Name:	DOB:
Signature of Parent/Guardian:	Date:
<p>Newborn - Hepatitis B (typically given in the hospital before discharge)</p> <p>2-4 days after hospital discharge (Newborn) - no vaccines</p> <p>2 week - no vaccines</p> <p>1 month - Hepatitis B</p> <p>2 months - Pentacel (DTaP, Polio, Hib), Prevnar, Rotavirus</p> <p>4 months - Pentacel (DTaP, Polio, Hib), Prevnar, Rotavirus</p> <p>6 months - Pentacel (DTaP, Polio, Hib), Prevnar, Rotavirus</p> <p>9 months - Hepatitis B</p> <p>12 months - Chickenpox (Varicella), Prevnar, Hib - <b><u>MUST be 1 year old for this checkup</u></b></p> <p>15 months - MMR, Hepatitis A</p> <p>18 months - DTaP</p> <p>2 years old - Hepatitis A</p> <p>2 1/2 year old - no required vaccines</p> <p>3 years old - no required vaccines</p> <p>4 years old - DTaP, MMR, Polio, Chickenpox (Varicella) - <b><u>MUST be 4 years old to receive these vaccines</u></b></p> <p>5,6,7,8,9,10 years old - yearly checkups - no required vaccines at these ages</p> <p>11 years old - TDaP, Meningitis - MUST be 11 to receive these vaccines (HPV is recommended - if not given at 11, HPV will be recommended at future visits)</p> <p>12,13,14,15 years old - yearly checkups - required vaccines</p> <p>16 years old - Meningitis - <b><u>MUST be 16 to receive this vaccine</u></b></p> <p>Flu vaccine (seasonal) - ages 6 months and up (strongly recommended)</p>
